

## INFILL CHAMBER LIDS

TRAFFIC SYSTEMS IS THE LEADING LIGHT IN TRAFFIC SIGNAL TECHNOLOGY.

### FEATURES

- Designed to fit TSL plastic chambers
- Adjustable ring to allow lid to be fitted and still keep continuous seal around chamber
- 'Traffic' identification marked in yellow plastic for easy identification
- Ability to infill with surrounding footpath material, i.e. exposed aggregate, cobbling etc.

### BENEFITS

- Easily identified in footpath as traffic signal chambers
- Non slip lid
- Square shape for ease of cobbling around.
- Able to install tactile drill in sheets or concrete pavers
